

KAYAK RULES AND GUIDELINES

- 1) A Kayak may be used in backwater events unless the structure of the event specifically rules out participation of anglers in Kayaks. The structure is proposed by the event leader and reviewed/approved by the Fishing Committee.
- 2) For most backwater events, a “team” consists of 1 or more anglers fishing from one vessel. In essence “Team Events” can be considered “Vessel Events”. For kayaks, therefore, team prizes may be awarded to an angler fishing alone in a kayak.
- 3) Other Backwater events involve teams where “Teams of Vessels” compete. There, kayak anglers will be evenly divided to balance the "team of vessels" for both sides.
